USBPRICAB-1.5M

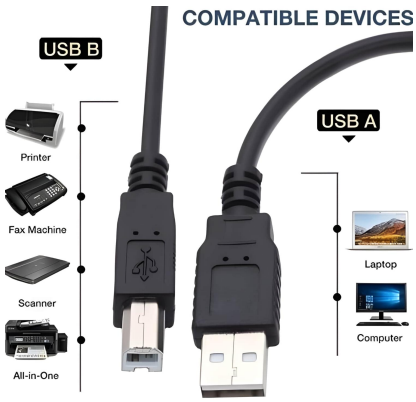

UniQue 1.5M Type A to Type B USB2.0 printer cable

Product Overview

UniQue USB2.0 printer cable 1.5M Type A to Type B; Hi-Speed 480 Mbps; compatibility HP Canon Lexmark Epson; plug and play

Specifications

About this product

The UniQue USB 1.5M Printer Cable delivers reliable Hi-Speed USB 2.0 data transfer between your computer and printers or scanners with Type A to Type B connectors, designed for consistent performance with HP, Canon, Lexmark, Epson and other USB enabled devices.

Overview Summary

UniQue USB 1.5M Printer Cable Type A to Type Bis a precision engineered Hi-Speed USB 2.0 cable designed to provide a dependable connection between desktop or laptop computers and peripheral devices such as printers and scanners. With a length of 1.5 meters, this cable supports fast print and scan jobs while maintaining signal integrity over longer distances.

This USB printer cable is compatible with popular brands including HP, Canon, Lexmark and Epson, making it a versatile choice for home, office, or business environments. The rugged connectors and shielding help reduce data errors and ensure a stable interface with USB 2.0 capable hardware.

Constructed with durable materials for daily use, the cable offers plug and play convenience without drivers, supporting standard USB communication protocols for seamless operation on most operating systems.

Performance tier: Essential connectivity

Uses: Printer connection, Scanner connection, Data transfer, Office productivity, Home print tasks

Overview

This USB 2.0 A to B cable is designed for high-speed connectivity, supporting devices like HP, Canon, Lexmark, and Epson printers and scanners. It features plug-and-play functionality, ensuring easy setup with both PC and Mac systems. With a length of 1.5 meters and a durable black design, it provides reliable data transfer up to 480 Mbps.

Description

The UniQue USB 1.5M Printer Cable features a standard USB Type A male connector on one end for connection to a computer or hub, and a USB Type B male connector on the other end for connection to printers, scanners or multifunction devices. As a Hi-Speed USB 2.0 cable, it supports transfer speeds up to 480 Mbps when connected to compatible host ports. The 1.5 meter length provides flexibility for device placement while maintaining signal quality.

This cable is engineered with robust shielding to protect against electromagnetic interference and to deliver stable communication between devices. The plug and play design requires no additional drivers for most systems and supports widespread compatibility with major printer brands and operating systems.

Features

The UniQue USB 1.5M Printer Cable incorporates key features that make it ideal for consistent device connectivity:

- Hi-Speed USB 2.0 support for faster data throughput compared to USB 1.1 cables.
- Standard USB Type A to Type B connectors for universal printer and scanner compatibility.
- 1.5 meter length for extended reach between computers and devices.
- Durable cable construction with shielding for reduced interference and signal loss.
- Plug and play functionality with no driver installation required on most systems.

What's in the Box

- 1 x UniQue USB 1.5M Printer Cable Type A to Type B

Specifications

- Cable length: 1.5 meters
- Connector A: USB Type A male
- Connector B: USB Type B male
- Standard: USB 2.0 Hi-Speed
- Data transfer rate: Up to 480 Mbps
- Compatibility: HP, Canon, Lexmark, Epson and other USB enabled printers and scanners
- Shielding: Yes
- Plug and play: Yes

FAQ

What devices work with this USB printer cable?

The cable is compatible with devices that have USB Type B ports, including printers, scanners and multifunction machines from brands like HP, Canon, Lexmark and Epson.

Is this cable USB 2.0 or USB 3.0?

This cable is a Hi-Speed USB 2.0 cable designed for USB 2.0 connections. It will work with USB 3.0 ports at USB 2.0 speeds.

Do I need drivers to use this cable?

No drivers are needed for the cable itself; the computer and device should recognise the connection automatically when both devices support USB standards.

Will this cable support high quality scanning?

Yes, with its USB 2.0 Hi-Speed support, it provides sufficient bandwidth for standard scanning tasks and reliable data transmission.

Can this cable be used for data transfer other than printing?

The primary design is for printer and scanner connectivity, but it can transfer data between compatible USB host and device ports supporting printer class operations.
