Yealink RoomCast Wireless Presentation system

## Product Overview

Yealink RoomCast Wireless Presentation system, 4K / 60fps decoder, Gigabit Ethernet, Wi-Fi, Bluetooth, Ultrasonic communication, 1x HDMI out, 1x Gigabit Ethernet Port (PoE supported), 2x USB Type-A, Four sources simultaneous on screen

## Specifications

### Overview Summary:

The Yealink RoomCast Wireless Presentation System is the perfect solution for modern collaboration in South Africa. Designed for seamless 4K screen sharing, wireless casting, and interactive teamwork, it transforms meeting rooms, classrooms, and training spaces into efficient hubs of productivity. With support for AirPlay, Miracast, Google Cast, and the Yealink Wireless Presentation Pod, it enables quick one-tap sharing from laptops, tablets, and smartphones without the hassle of cables or extra software.

Compact, easy to install with PoE, and built with enterprise-grade security, the Yealink RoomCast ensures reliability and peace of mind for every presentation. Ideal for business meetings, educational setups, and collaborative workspaces, this device offers multi-screen sharing, whiteboarding, and annotation tools to enhance communication and engagement. Shop now and bring effortless collaboration to your workplace.

**Performance tier:**Professional

**Uses:**Business meetings, training sessions, classroom learning, video conferencing, collaborative presentations

### Overview:

**Yealink RoomCast - Wireless Presentation System for Modern Collaboration**
Yealink RoomCast is a wireless presentation system designed to transform meeting rooms, training spaces, and classrooms into highly collaborative environments. Supporting 4K Ultra HD multi-sharing, wireless screen casting, and advanced collaboration tools, it ensures productive and engaging teamwork in any workspace.

### Description:

Yealink RoomCast offers wireless content sharing with 4K/60fps performance, seamless compatibility with AirPlay, Miracast, Google Cast, and Yealink Wireless Presentation Pod. With support for four simultaneous screen shares, annotation, whiteboarding, and intuitive remote control, it enhances collaboration while ensuring data security. Compact design, PoE support, and cloud management make it simple to deploy, cost-effective, and reliable for both corporate and educational settings.

### Features:

**Seamless Wireless Sharing and Collaboration**
RoomCast eliminates cables by supporting AirPlay, Miracast, Google Cast, and Yealink Wireless Presentation Pod. Users can cast from laptops, tablets, and mobile devices without installing extra applications. One-tap sharing makes content delivery quick, intuitive, and efficient.

**Ultra HD Visual Experience**
Equipped with 4K/60fps video resolution, RoomCast ensures presentations and multimedia content are delivered with clarity and smooth playback, enhancing team collaboration and engagement.

**High-Speed Wi-Fi for Reliable Performance**
With built-in 802.11ac 2x2 MIMO Wi-Fi, RoomCast provides low-latency wireless casting. It supports multiple Wi-Fi modes (STA, AP, P2P) to ensure flexibility and stable connections.

**Simple One-Cable Installation**
Thanks to PoE support and compact design, installation is quick and hassle-free. A single cable provides both power and

connectivity, allowing easy placement on a TV or desktop.

**Real-Time Multi-Screen Sharing**
Up to four users can share their screens simultaneously. This multi-view setup enables brainstorming, training, and comparison without switching between devices or applications.

**Interactive Collaboration Tools**
Beyond simple screen casting, RoomCast includes whiteboard, annotation, and remote control functions. These tools allow teams to collaborate in real time, capture ideas, and boost meeting productivity.

**Enterprise-Grade Data Security**
All data transmission is secured within the local network using WPA2-PSK and 128-bit AES encryption. For additional protection, PIN authentication is available for AirPlay and Miracast, preventing unauthorized access.

**Digital Signage and Cloud Management**
RoomCast doubles as a digital signage solution, allowing organizations to display customized messages or stream media. IT teams can manage devices remotely through Yealink's Device Management Platform or Workspace Management Platform.

**Effortless Deployment and Integration**
With its all-in-one design, PoE functionality, and built-in security slot, RoomCast is optimized for quick deployment. Its cost-effective setup makes it ideal for modern workplaces, educational institutions, and multimedia environments.
