Specifications

Overview:

The Keychron V6 Max QMK/VIA Wireless Custom Mechanical Keyboard offers an 1800 compact layout, providing a full set of keys, including a numpad, in a space-efficient design. It features both 2.4 GHz wireless connectivity with a 1000 Hz polling rate and Bluetooth 5.1, allowing seamless multitasking across multiple devices. The gasket mount design, combined with sound-absorbing foam, ensures a comfortable and quiet typing experience.

Double-shot PBT keycaps provide durability and a premium feel. With QMK/VIA support, users can fully customize key functions and macros to suit their preferences. Hot-swappable sockets enable easy switch customization without soldering, and south-facing RGB LEDs offer vibrant backlighting. The V6 Max is compatible with both Mac and Windows systems, featuring a system toggle and additional keycaps for each. Exclusive Gateron Jupiter mechanical switches in the fully assembled version offer a lifespan of up to 80 million keystrokes, ensuring long-lasting performance.
