WD40EZRZ

Western Digital Blue 4TB 3.5" SATA3(6Gb/s) Internal Hard Drive

Product Overview

Western Digital Blue - 4TB 3.5" SATA3(6Gb/s) HDD, 5400RPM Spindle Speed, 64MB Cache, 150MB/s Host to/from (Sustained)

Specifications

Features:

Improve PC Performance
Pair a larger capacity drive with an SSD to give your desktop a performance and storage boost. The SSD maximizes speed of data access, while the WD Blue drive stores up to 4 TB of movies, games, files, applications and more.

Upgrade and Backup with Ease
WD hard drives come with free access to WD Acronis True Image. Our downloadable software quickly copies all your existing data to your new drive - without reinstalling your operating system. Backup and restore functions make it easy to save and retrieve your personal data.

Plan for the Future
With better technology comes bigger storage needs. Cameras that record ultra-high definition video at 4K resolution and 30 frames per second require a ton of storage. Handling all that media is a snap with our 4 TB drive.

Data LifeGuard
Advanced algorithms monitor your drive continuously so it stays in optimum health.

NoTouch Ramp Load Technology
Safely positions the recording head off the disk surface to protect your data.

IntelliSeek
Calculates optimum seek speeds to lower power consumption, noise and vibration.
