Performance tier:High-performance business

Uses:office document printing, high-volume printing, workgroup printing, reports and invoices, network printing

Overview:

High speed mono printing for demanding office workflows

The Epson WorkForce Pro WF-M5299dw is engineered for business environments that require fast, consistent monochrome output with minimal interruption. Designed around PrecisionCore printhead technology and DURABrite Ultra ink, it delivers sharp text quality alongside reliable performance across a wide range of media types. With rapid first page output and high page yields, this printer reduces downtime and keeps productivity on track in busy workgroups.

Description:

The Epson WorkForce Pro WF-M5299dw is a high performance A4 mono inkjet printer built for office productivity. It combines fast print speeds, low energy consumption, and high capacity paper handling to support demanding workloads. With advanced connectivity options including WiFi, Gigabit LAN, and NFC, it integrates easily into modern office environments. Its robust design, high yield output, and minimal maintenance requirements make it a practical solution for businesses seeking efficient and cost effective printing.

Features:

Designed for efficiency and reduced intervention

This model delivers a first page out time of just 4.8 seconds, ensuring documents are ready almost instantly. High yield ink capacity allows printing up to 40000 pages before replacement, reducing interruptions. With a standard paper capacity of 330 sheets and expandable options, users spend less time refilling and more time focusing on core tasks.

The simplified paper path and non contact printing mechanism enable consistent output across various media types including recycled paper, envelopes, labels, and glossy stock. This flexibility supports diverse office requirements without compromising performance.

Lower energy consumption and operational savings

Compared to traditional laser printers, this inkjet model consumes significantly less power during operation. Energy usage can be reduced by up to 90 percent, contributing to lower running costs and improved environmental performance. Fewer consumables also mean reduced waste and less frequent maintenance.

Built for modern business environments

The WF-M5299dw supports a wide range of print languages including PCL and PostScript 3, making it suitable for integration
