Specifications

About this product

The Hisense WS140RB3G Twin Tub Washing Machine offers a generous 14kg washing capacity and 7kg spin-drying capacity, making it suitable for large households and frequent laundry loads. Finished in Titanium Crystal Grey, this practical twin tub washing machine features a 1350rpm spin speed, convenient knob controls, a lint filter, a drain filter, a strong base and removable feet for added convenience. The air dry function helps remove excess moisture from clothes during the spin cycle. Buy the Hisense 14kg Twin Tub Washing Machine online today for a convenient laundry solution in South Africa.

Overview Summary

Hisense WS140RB3G 14kg Twin Tub Washing Machine With Air Dry

The Hisense WS140RB3G is a large-capacity twin tub washing machine designed to handle substantial laundry loads at home. With a 14kg washing capacity and a separate 7kg spin-drying capacity, it provides a practical solution for families and households that need to wash larger quantities of clothing, towels and everyday laundry.

Designed for straightforward operation, this Hisense washing machine features easy-to-use knob controls, a 1350rpm spin speed and an air dry function to help remove excess moisture from washed garments. The integrated lint filter and drain filter support routine laundry maintenance, while the strong base and removable feet add practical design features. Its Titanium Crystal Grey finish gives the appliance a modern appearance.

Performance tier: Large-capacity household washing machine

Uses: Family laundry, everyday clothing, towels, bedding suitable for the machine capacity, frequent washing, household laundry management

Overview

The Hisense WS140RB3G is a 14 kg twin-tub washing machine with a 7 kg drying capacity, designed for efficient washing and faster air-drying of laundry. It features a 1350 rpm maximum spin speed, drain pump, large knob controls and an Air Dry function that helps reduce drum humidity for quicker drying. Finished in Titanium Crystal Grey, it includes removable feet for easier installation, a strong stable base and lint and drain filters for convenient everyday use.

Description

The Hisense WS140RB3G Twin Tub Washing Machine is designed for households that need a practical appliance with a generous washing capacity. Its 14kg washing tub accommodates large laundry loads, helping families manage regular washing needs more efficiently. The separate 7kg spin-drying capacity allows clothes to be spun after washing to remove excess water before they are hung out to dry.

The twin tub design provides separate washing and spin-drying compartments. This configuration allows users to manage the washing and spinning stages separately according to their laundry needs. The 1350rpm spin speed supports moisture removal during the spin cycle, helping prepare garments for line drying or further drying.

Simple knob buttons provide straightforward manual controls for everyday operation. The integrated lint filter helps collect lint released during washing, while the drain filter supports the machine's drainage system. These features contribute to practical laundry care and routine maintenance.

Finished in Titanium Crystal Grey, the Hisense WS140RB3G combines a modern appearance with a strong base and removable feet. Its large washing capacity and separate spin-drying compartment make it a useful option for busy households looking for a twin tub washing machine for regular laundry tasks.

Features

The Hisense WS140RB3G combines a large washing capacity with convenient twin tub operation and practical maintenance features.

- 14kg washing capacity: Handles large laundry loads for families and busy households.
- 7kg spin-drying capacity: Allows washed clothes to be spun separately to remove excess moisture.
- Twin tub design: Provides separate washing and spin-drying compartments for flexible laundry management.
- Air dry function: Helps remove excess moisture during spin drying before clothes are hung out to dry.
- 1350rpm spin speed: Supports moisture extraction during the spin cycle.
- Knob controls: Offer straightforward manual operation.
- Lint filter: Helps collect lint released during the washing process.
- Drain filter: Supports the machine's drainage system.
- Strong base: Provides a sturdy base for the appliance.
- Removable feet: Offer flexibility when setting up the machine.
- Titanium Crystal Grey finish: Adds a modern look to the laundry area.

Removable Feet

Designed for flexible and convenient installation, the removable feet make it easier to position the washing machine exactly where you need it. Whether you're installing in a compact laundry area or moving the unit between spaces, this feature allows for quick adjustments and improved portability. It also simplifies leveling on uneven surfaces, ensuring better balance and stability while reducing setup time and effort.

Strong Base

Built with a durable and reinforced base structure, this washer delivers enhanced stability during operation. The strong base minimizes vibrations and unwanted movement, even during high-speed spin cycles or when handling heavier loads. This not only improves overall washing performance but also helps protect internal components, contributing to longer-lasting durability and a quieter, more reliable laundry experience.

Big Knobs

Ergonomically designed large control knobs provide a comfortable grip and intuitive handling, making it easy to select and adjust washing and spinning settings. The bigger size improves visibility and usability, especially for quick changes during operation. This user-friendly design ensures smooth control, reduces effort, and enhances the overall convenience of managing your laundry cycles.

FAQ

What is the washing capacity of the Hisense WS140RB3G?

The Hisense WS140RB3G has a 14kg washing capacity, making it suitable for large laundry loads and family use.

What is the spin-drying capacity of this Hisense washing machine?

The machine has a separate 7kg spin-drying capacity. Laundry loads placed in the spin tub should remain within this limit.

Does the Hisense WS140RB3G have an air dry function?

Yes. The machine includes an air dry function that helps remove excess moisture during spin drying. It should not be confused with a heated tumble dryer.

What does a twin tub washing machine mean?

A twin tub washing machine has separate compartments for washing and spin drying. Clothes are transferred from the washing tub to the spin tub as part of the laundry process.

Is the Hisense WS140RB3G suitable for a large family?

Its 14kg washing capacity makes it a practical option for larger households or people who regularly wash substantial laundry loads. The 7kg spin-drying capacity applies separately.

Does this washing machine have lint and drain filters?

Yes. The Hisense WS140RB3G includes both a lint filter and a drain filter. Follow the manufacturer's instructions for cleaning and maintenance.

What colour is the Hisense WS140RB3G?

This model comes in Titanium Crystal Grey.

Does the Hisense WS140RB3G use automatic controls?

The supplied product information lists knob buttons for operation. Consult the manufacturer's manual for the available control settings and operating instructions.

What should I consider before buying this twin tub washing machine?

Consider the available installation space, the 14kg washing capacity, the separate 7kg spin-drying limit and the manual twin tub washing process. Check the manufacturer's installation requirements before use.
