Description

The**Hisense WT3W1622UB 16kg Top Loader Washing Machine**is designed to make household laundry more convenient with its generous washing capacity and versatile cleaning functions. Its 16kg capacity accommodates substantial laundry loads, making it a practical choice for larger families and households that regularly wash clothing, towels and bedding.

The top-loading design provides convenient access to the stainless steel drum, while the semi-transparent glass lid allows visibility into the washing compartment. Its premium black cabinet and front-positioned control panel create a modern appearance that complements contemporary laundry spaces. The red LED display and six push buttons provide accessible controls for selecting washing programs and operating functions.

With eight dedicated washing programs, the WT3W1622UB accommodates different laundry requirements. Mix is suitable for mixed clothing loads, Baby Care provides a dedicated washing option for baby garments, and Quick Wash offers a shorter washing program. Bedding provides an option for larger household fabrics, while Eco supports an energy-conscious washing cycle. Spin Only, Air Dry and Tub Clean provide additional laundry and appliance maintenance functions.

The machine also includes practical convenience features such as Pause & Add, which allows users to pause a cycle when additional laundry needs to be added, and Delay End for scheduling the completion of a wash cycle. Temperature selection offers hot, warm and cold options, while Fuzzy Logic adjusts washing conditions according to detected load requirements.

Aqua Save provides an additional water-management function, while Auto Restart helps resume operation following a power interruption. Child Lock adds protection against accidental changes to the washing machine controls. With its double water inlet, integrated drain pump and freestanding installation design, the Hisense WT3W1622UB offers a versatile laundry solution for South African households.
