(A WINX Cast essential kit receiver is required, not included. This sends a USB-C video output to a WINX Cast essential kit receiver).

Specifications

Overview:

The CAST More Type-C Wireless Display Transmitter allows an additional Type-C compatible laptop or mobile device to present during boardroom meetings with your WINX HDMI Wireless Display Receiver. Connect the receiver (sold separately) to your boardroom's projector or screen (via HDMI) and power through an adjacent USB port. Then, connect this transmitter to your laptop's Type-C port and sync it to the receiver. And just like that, you're ready to present, no software or drivers required - this product really is plug-and-play. Connect up to 5 WINX HDMI or Type-C transmitters to 1 receiver and switch between presentations at the click of a button. Turn your meetings into simple, smooth sessions where sharing is effortless.

Features:

- Ideal for use with Type-C compatible notebooks, tablets, or mobile devices

- Works with the WINX HDMI Wireless Display Receiver
- Perfect for wirelessly connecting to boardroom projectors or screens
- Transmits 1080p@60Hz
- Wireless casting range of up to 30m
- Each receiver can pair up to 5 transmitters, allowing you to switch between 5
- presenters seamlessly
- Switch between different devices at the click of a button for effortless collaboration
- The transmitter supports 100W Power Delivery pass-through via Type-C
- No software or drivers are required, and no hidden licenses or subscription fees
- Universally compatible with Windows, Linux, MacOS, iOS, and Android

WHAT'S IN THE BOX:

- WINX CAST More Type-C Wireless Display Transmitter x1
- User manual x1
