Buy now to elevate your workflow with a wired keyboard and mouse combo that delivers both clarity and precision.

Performance tier:Professional

Uses:Office work, data entry, gaming, content creation, home computing, general productivity

Overview:

WINX DO Business Backlit Wired Keyboard and Mouse Combo

For professionals who value consistency and clarity in their workspace, the WINX DO Business Backlit Wired Keyboard and Mouse Combo delivers a dependable, no-nonsense solution. Designed to support focused productivity, this set provides a comfortable typing and navigation experience suited to daily office tasks, data work, and communication. Its wired connection ensures stable, uninterrupted performance, making it ideal for environments where reliability is critical. The clean layout, responsive input, and practical design all contribute to a smoother workflow with fewer distractions.

Description:

The WINX DO Business combo is built to streamline everyday computing with a full-size US QWERTY keyboard and a precision-driven mouse. The white LED backlighting enhances visibility in low-light conditions, improving typing accuracy without unnecessary glare. A responsive 7-button mouse with adjustable DPI up to 7200 allows users to fine-tune cursor control for different tasks, from detailed work to fast navigation. With durable construction, cross-platform compatibility, and plug-and-play USB connectivity, this combo offers a practical and efficient setup for both office and home use.

Features:

Designed for clear visibility and efficient typing

A full-size 105-key layout ensures comfortable spacing and familiarity, reducing typing fatigue during long sessions. The integrated white LED backlight supports visibility in dim environments, helping maintain accuracy without interrupting focus. Dedicated multimedia keys provide quick access to common controls, improving efficiency when switching between tasks or managing media.

Responsive control with adaptable precision

The included mouse is engineered for versatility, offering multiple DPI levels that range from 1000 to 7200. This allows seamless adjustment between precision tasks and faster cursor movement. Its 7-button configuration enhances usability, enabling smoother navigation and improved workflow control. The ergonomic shape supports extended use, reducing strain during long working hours.

Reliable wired performance for consistent workflow

A wired USB connection removes concerns about latency, battery life, or signal drops. The keyboard features a 160cm cable, while the mouse includes a 180cm cable, providing flexibility in desk setup. This makes the combo well suited for professional

environments where uninterrupted input is essential.
