Specifications

Overview Summary:

Bring the cinema experience to your living room with the Wanbo X5S 1080P Smart Projector, now available for purchase in South Africa. This sleek dark blue device delivers stunning Full HD visuals up to 140 inches, powered by a bright 1100 ANSI lumen glass lens and HDR10 support for rich colors and deep contrast. With the intuitive VIDAA OS pre-installed, you get instant access to Netflix, Disney+, Prime Video, YouTube, and over 1800 other apps without any setup hassle.

The X5S is designed for effortless use, featuring auto focus, automatic keystone correction, and obstacle avoidance that ensures a sharp, perfectly framed image in seconds. Whether you are watching movies on the ceiling, connecting wirelessly via AirPlay or Miracast, or enjoying immersive sound from its built-in 12W Dolby Audio speaker, this projector adapts to your space instantly.

Upgrade your entertainment setup today and enjoy big-screen viewing without the high cost of a large TV. Buy now to experience crystal-clear Full HD projection and seamless smart streaming directly from your home.

Performance tier:Mid-range Home Cinema

Uses:Movie watching, gaming, sports viewing, streaming video, presentations, outdoor entertainment

Overview:

The Wanbo X5S Full HD smart projector transforms any room into a personal cinema, delivering a stunning 1080p picture with vibrant colors and sharp details. Powered by the intuitive VIDAA OS, this device offers instant access to your favorite streaming services like Netflix, YouTube, Disney+, and Prime Video without needing extra cables or dongles. With a bright output of 1100 ANSI Lumens, images remain clear even in rooms with some ambient light, while the auto focus, keystone correction, and screen alignment features ensure the picture is perfectly framed every time you turn it on.

Description:

The Wanbo X5S (Part Number: X5S) combines high-performance optics with smart technology to provide an effortless home theater experience. Key benefits include native 1920x1080 resolution for crisp visuals, a long-lasting light source rated for over 20,000 hours, and versatile mounting options that support front or ceiling projection up to 140 inches. The built-in smart platform eliminates setup complexity, allowing you to start watching in seconds with fast boot times and voice control compatibility.

Cinema-scale entertainment is now within reach without the high cost of large-format televisions. This projector is designed for flexibility, whether you mount it on a ceiling or place it on a shelf, offering projection sizes ranging from 40 to 140 inches at throw distances between 1.1 and 3.9 meters. The inclusion of HDR10 support enhances contrast and color depth, while the zoom function provides additional freedom in how you position your screen.

Features:

Key Features:

- Native Full HD resolution (1920x1080) with HDR10 and 4K input via HDMI 2.1
- 1100 ANSI Lumens brightness for vivid images in various lighting conditions
- VIDAA OS smart platform with access to Netflix, Disney+, Prime Video, and over 1800 apps
- Automatic vertical and horizontal keystone correction (+/-30degrees), auto focus, obstacle avoidance, and screen alignment
- Dual-band Wi-Fi (2.4/5GHz) and Bluetooth 5.0 for seamless connectivity
- Wireless casting via AirPlay and Miracast with VIDAA Voice support for Google Nest Home and Apple HomePod
- Built-in 12W Dolby Audio speaker delivering room-filling sound without external speakers

The setup process is designed to be hands-off, removing the frustration of manual adjustments. The system handles vertical and horizontal alignment automatically within seconds of powering on, with a cold start time of just 12 seconds and standby wake-up in as little as 1.5 seconds. Whether you are setting up for an impromptu movie night or a regular evening ritual, the X5S ensures the image is sharp and properly framed before you even sit down.

Connectivity options are robust, featuring an HDMI 2.1 port that supports eARC output and higher HDCP versions, along with two USB ports for media playback. The device also includes a built-in speaker system that delivers rich audio quality, meaning you often do not need to invest in a separate soundbar immediately. For those who prefer wireless control, the projector pairs effortlessly with smart home ecosystems like Google Nest Home and Apple HomePod via VIDAA Voice.

FAQ**Does the Wanbo X5S support streaming apps like Netflix and Disney+?**

Yes, this projector runs on VIDAA OS which provides direct access to popular streaming services including Netflix, YouTube, Disney+, Prime Video, Apple TV+, and over 1800 other apps right out of the box.

How large of a screen can I project with the X5S?

You can project images ranging from 40 to 140 inches by adjusting the throw distance between 1.1 and 3.9 metres, or use the zoom function to fit tighter spaces.

Does this projector require manual setup for alignment and focus?

No, the X5S features automatic vertical and horizontal keystone correction up to +/-30degrees, auto focus, auto obstacle avoidance, and auto screen alignment, so it adjusts the image immediately upon powering on.

Can I connect my phone or laptop wirelessly to this projector?

Absolutely, you can cast your screen via AirPlay or Miracast without cables, and the device also supports dual-band Wi-Fi for smooth streaming and voice control through Google Nest Home or Apple HomePod.

What are the connectivity options besides wireless casting?

The unit includes an HDMI 2.1 port that accepts 4K HDR input with eARC output, two USB ports, an AUX output, and Bluetooth 5.0 for connecting external speakers or headphones.
