Specifications

Features:

A studio on a card!
Cool Xonar D-KARA shows off a dedicated 10-band EQ, lifelike reverb, percise low/high pass filters, a compressor, and powerful dynamic boost. That allows it to turn you into an awesome vocal performer, as it shapes sound to perfection. It has truly professional settings and effects if you're in that studio rock or guitar ballad mood, while a special tunable preset supports a more flexible vocal range. Sing your own way - all of these advanced features are your ticket to karaoke stardom!

- Reverb: Sing with lifelike environmental sound effects
- EQ: Find your voice thanks to 10-band equalizer customization
- Compressor/dynamic boost: Optimize your epic performances with modifiable voice gain
- High pass filter/low pass filter: Keep your singing sensations nice and clear across different frequencies

- Presets: Save your favorite vocal effect combination, and turn up the fun with easy activation
- Advanced settings: One-click enables advanced settings for studio-like effect tuning

Five dedicated master presets
To make settings quicker, D-KARA offers five one-click selectable master presets defined by Xonar and studio engineers: rock, rock pro, ballad, ballad pro, and special. Big heavy metal headbanger or soft and tender love song fan, these master presets get you ready for you own greatest hits collection!

Intuitive karaoke features
Everyone can be a super star via professional but easy karaoke features.

- Key shifting: Easily modify the pitch of any stereo content
- Vocal cancellation: Remove vocals and leave just the original music: ideal for your note-perfect covers!
- Stereo mix: Mix and record stereo sound and vocals
- Easy import/export presets: Great music needs to be shared! Create your masterpieces and let family and friends enjoy them!
- Instant hotkeys: Set up your own shortcuts in the Windows toolbar for lightning-fast access

Always on the beat thanks to real time microphone input
Never again miss a note or a single beat! While software karaoke and recording typiclly have mic lag, D-KARA hardware includes an advanced microphone-input digital signal processor that's up to 100 times more responsive than onboard audio. It's even up to ten times quicker than other karaoke cards. With microphone response this fast, you're ready for the big time.

Notes and lyrics in clear perfection with 106dB SNR
D-KARA builds on award-winning Xonar hardware to dazzle your ears with crystal clear performances. It uses exclusive ASUS Hyper Grounding technology to increase clarity by 16 times compared to onboard audio, pumping out an impressive 106dB SNR that tops the average 90dB of integrated sound.
