Specifications

Summary Overview:

Upgrade your digital workspace with the sleek and powerful Acer E10 ETBook Netbook, model ZL.OTH11.055. Designed for South African users who demand reliability, this laptop features a vibrant 14-inch Full HD display and is powered by an Intel Celeron N4500 processor paired with 8GB of DDR4 memory. Whether you are managing work tasks, attending online classes, or enjoying entertainment, the fast SSD storage ensures your system boots up instantly and runs smoothly.

This lightweight grey netbook comes pre-installed with Windows 11 Home, offering a modern interface and enhanced security features right out of the box. Equipped with the latest Wi-Fi 6 technology, you will enjoy faster wireless speeds and stable connections wherever you are. Don't miss out on this excellent value for money; buy now to experience seamless performance and portability.

Laptop performance tier:Entry Level

Uses:Web browsing, office work, online learning, media consumption, video conferencing

Overview:

Discover the Acer E10 ETBook ET-10NT Series (Part Number ZL.OTH11.055), a sleek and efficient grey netbook designed for modern connectivity and everyday productivity. Powered by an Intel Celeron Dual Core N4500 processor, this device delivers reliable performance with speeds reaching up to 2.80GHz thanks to Turbo Boost technology, ensuring smooth multitasking even on demanding applications. The system comes equipped with 8GB of onboard DDR4 memory, providing ample workspace for your browser tabs and office tasks, while the built-in 256GB SSD ensures rapid boot times and quick file access without the need for an optical drive.

Description

This laptop offers a perfect blend of portability and power, featuring a vibrant 14-inch Full HD LED backlit display that brings content to life with sharp clarity. Whether you are streaming media or working on documents, the Intel UHD Graphics handle visual tasks effortlessly. Connectivity is seamless with the latest Wi-Fi 6 standards and Bluetooth support, allowing for fast wireless transfers and easy device pairing. The inclusion of modern ports like USB Type-C and HDMI makes it a versatile companion for presentations and external monitors.

Running on Microsoft Windows 11 Home 64-bit, this notebook provides a familiar and secure interface out of the box. Its compact design measures just 19.9mm in height and weighs approximately 2.5 kg, making it easy to carry around for students or professionals on the go. The device also includes essential built-in tools like a dual microphone array and a 2-megapixel webcam, ensuring clear audio and video communication during online meetings.

Technical Specifications

ComX Computers

Product Specification Sheet

The core hardware configuration is optimized for efficiency and speed:

- Processor: Intel Celeron N4500 (1.10GHz base, up to 2.80GHz with Turbo Boost) with 4MB L3 Cache
- Memory: 8GB DDR4 onboard (Maximum supported is 8GB; no expansion slots available)
- Storage: 256GB SSD with support for microSD cards up to 256GB
- Graphics: Intel UHD Graphics integrated system architecture

The display offers a resolution of 1920 x 1080 pixels on a non-glossy LED panel, providing sharp visuals without glare. For connectivity, users benefit from dual-band Wi-Fi (802.11ax) and Bluetooth 5.1 or later. Physical dimensions include a width of 357.4mm, depth of 228mm, and the aforementioned height of 19.9mm.

Connectivity and Ports

Staying connected is made easy with a comprehensive array of ports designed for modern peripherals:

- One USB 3.2 Gen 1 Type A port
- Two USB 3.2 Gen 2 Type C ports
- HDMI 1.4 output with HDCP support for external displays
- Micro SD Card Reader

Note that this model does not include a dedicated Ethernet (RJ-45) port or an optical drive, relying instead on its robust wireless capabilities and SSD storage.
