DOMINATE THE BATTLEFIELD.
RESPOND IN A HEARTBEAT.

4ms (OD)

Response time
OVERDRIVE (OD)
Impact Response, Zero Ghosting

Overdrive (OD) is a technology that speeds up the pixel response time by changing the voltage to the pixel.

Ultra-fast response time for fast-moving scenes and minimal motion blur.

Ideal for competitive gaming.

Enhanced visual clarity for fast-paced gameplay.

Reduces motion blur and ghosting.

Smooth and crisp gaming experience.

Optimized for high refresh rate displays.

Enhances overall gaming performance.

Improves responsiveness and reduces input lag.

Provides a competitive edge in gaming.

180Hz

3440x1440 UWQHD Display with 180Hz Precision

Fully immerse between unbelieved game detail and gaming speed when you can experience the ultra-wide 3440x1440 resolution display. Its 180Hz refresh rate struggles to higher than 180Hz refresh rate. Every crosshair, every enemies to high-res textures, and every movement with absolute fluidity. Elevate your advantage into a masterpiece of performance.

SCROLL EFFORTLESSLY

Scroll effortlessly on the immersive Pixel-gaming monitor, its 180Hz refresh rate ensures ultra-smooth visuals and lower responsiveness, making everyday work feel fluid and seamless.
