CANYON

PoE Injector

CNP-POEI

The CNP-POEI is a Power over Ethernet Injector which can inject power into a non-powered Ethernet cable and deliver Electrical Current to PoE compliant devices such as APs, IP Cameras or IP Phones, where there are no power lines or outlets available. It fully complies with IEEE 802.3af standard, and can work with all IEEE 802.3af PoE compliant PDs (Powered Devices) or PoE receiver adapters, such as Canyon's CNP-POES . The installation is very simple (Plug-and-play), and there is no configuration or software required.

Key Features

- IEEE 802.3af compliant PoE Injector
- Delivers power up to 100 meters
- Auto-determine the necessary power requirements
- Plug-and-Play, no configuration required
- 15.4W (Max. 48VDC)
