

eCost's new Telephone Management System (TMS). Tailor made for your Grandstream UCM IP PBX.

eCost's new TMS empowers telephone providers to offer more accurate and detailed voice services. The software enables you to pull data from your Grandstream UCM IP PBX into usable and accurate data.

How eCost and Grandstream are paving the way forward for ITSP's.

- Extremely fast setup and easy to use. Install eCost in just minutes!
- Find and control your monthly expense, through your extensions, incoming and outgoing calls and missed calls with a single click.
- Ensure that your billing and provider rates are accurate.
- Highly scalable and detailed real-time reporting.
- Seamlessly schedule your reporting on a daily, weekly or monthly basis.
- No annual licensing fees.
- Monitor your extensions, departments or divisions live.
