EXECUTIVE SERIES

OKI's ES9400 MFP Series – best for the job in any office, department or business

Are you tired of sacrificing high volume capacity for print quality? Or vice versa? Or are you looking to streamline your print workflow and document management, but also want a fast, robust, high volume printer for day-to-day business?

Perhaps you also need the finishing capabilities often only found on more specialised models?

OKI's ES9400 MFP Series provides all these features and thanks to OKI's smart Extendable Platform (sXP), will integrate perfectly with your existing workflows.

Packed with features to enhance productivity

Designed with larger workgroups and departments in mind, but well within reach of busy small businesses too, the ES9400 MFP Series, OKI's copier-based, A3 colour MFPs, raise the bar for performance, ease of use, output quality and flexibility.

High volume capacity, full finishing capabilities and tablet-style touchscreen operated, these devices are packed with the latest features for printing, copying, scanning, faxing and document management to optimise workflows and ensure your operations run efficiently. Great media versatility provides the power to handle a huge range of printing, in-house, including highly-professional posters, booklets and banners – and advanced security features mean confidential documents stay that way. It all adds up to a wealth of functions – in one small footprint device.

Select your model in 3 easy steps

Step One

Select your print engine speed

ES9466 MFP 35ppm

ES9476 MFP 50ppm

Step Two

Select your scanning speed

RADF 73ipm
100 sheet input

Standard volume scanning

DSDF 240ipm
300 sheet input

High volume scanning

Step Three

Select your media handling

Cabinet 1,200 sheets capacity

Low volume printing

PFP 1,750 sheets capacity

Medium volume printing

LCF 3,200 sheets capacity

High volume printing

2, 4 and Swedish(MSF or SSF): 45587412/3/4

Professional

Choice of finishing options

The ES9400 MFP Series offers full extensive, high capacity finishing capabilities with a choice of internal, staple and booklet finishing. This, combined with advanced pin-sharp image processing means impressive, professional results whatever you are printing.

Stylish

Unique, sleek design

The new ES9400 MFP Series stands out with its sleek, black high gloss panels. Yet despite its heavy duty nature it has a smaller footprint and weighs considerably less than comparable MFPs.

Fast

Twice as fast scanning

A dual scanning feature means time-consuming scanning can be carried out at up to 240 ipm – more than twice as fast as ordinary scan speeds; ideal for businesses that regularly digitise high volumes of documents. And with a warm-up time of less than 12 seconds and print speeds of 50 pages a minute there's minimal waiting time for urgent work.

Outstanding

Professional print quality

All this functionality comes without the need to forfeit print quality. Outstanding 1200 x 1200 dpi is complemented by thin line processing for colour and auto trapping to remove blurring for image and text clarity.

Streamlined

Operate with a touch

Operated by swiping, pinching in and out and drag and drop – all actions familiar to tablet and smartphone users – the 9" touchscreen user interface can be easily customised by changing the screen background or importing icons and company logos.

Flexible

Multi Station Print (optional)

Allows users to print their documents from a shared job list on any ES9400 MFP Series provided they have a user pin or IC card – enables pull printing without the hassle or cost of installing a server.

Advanced

Embedded optical character recognition (OCR) (optional)

Helping businesses digitise and manage large numbers of documents an embedded OCR automatically captures documents (in up to 16 languages) electronically.

Open

OKI's sXP (smart Extendable Platform) for easy integration

OKI's embedded platform sXP is completely flexible and customisable open architecture for simple document workflow integration. This enhances productivity by allowing users to electronically capture, distribute and manage documents across a business. OKI also offers customers SENDYS Explorer LITE document management software at no extra cost.

Simplified

Shared functions for easy setup

Administrators can syncrhonise user setup and address book data across multiple ES9400 MFPs on their network, making setup quick and easy.

Protecting your business

Don't let security worries slow down workflow. Even businesses working with sensitive data can work quickly and productively, safe in the knowledge that the ES9400 MFP Series has security features that prevents unauthorised access to documents:

IP Sec enabler (optional)

IPsec (IP Security Protocol) protects communication in the IP layer, providing authenticated and encrypted submission of print jobs from the desktop to the MFP.

Data overwrite kit (optional)

Ensures that the hard disk drive is absolutely clear of readable data. The disk is automatically cleared immediately after every job, preventing the data from being recovered by unauthorised users.

Advanced Encryption Standard (AES)

This is a 128-bit standard, built-in encryption software to prevent unauthorised access to stored data, even if the hard disk drive is physically stolen.

Monitoring rights

Administrators can monitor usage of all functions with detailed information including user, date, time, number of pages, type of paper and type of job.

User authentication

Print jobs are only released with a PIN via the user interface or IC card using the embedded card reader. This ensures only authorised users have access to documents and sensitive documents are not left uncollected.

Specification summary

	ES9466 MFP	ES9476 MFP
Printing		
Print Speed	A4: 35ppm colour/mono; A3: 18ppm colour/mono	A4: 50ppm colour/mono; A3: 25ppm colour/mono
Function	Print, Copy, Scan, Fax	
User Interface	9" (23cm) tablet-style colour touch screen	
Time to 1st print	Approx 7.8 seconds colour, 5.9 seconds mono	Approx 5.7 seconds colour 4.4 seconds mono

Toner cartridges* (33,600 pages)	Cyan: 46564703; Magenta: 46564702; Yellow: 46564701	
Toner cartidges* (38, 400 pages)	Black: 46564704	
Waste Toner Box (120,000 pages Mono) (30,000 pages Colour)	45639502	

*Toner : Number of A4 pages @ 5% coverage.

Why OKI?

OKI is the business printing specialist.

Our single-minded aim is to help businesses to grow and to prosper by enabling them to create the best possible impression with their printed communications. By building on our proven, reliable, single-pass technology, we have developed fast, high quality, cost-effective printing solutions that benefit businesses today and into the future.

We also know how important reliability is for customers. That's why every one of our products is built to perform, day in, day out, helping to maintain business efficiency and provide that competitive edge.

OKI. No one does more in business printing.

Considering the Environment

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- Our products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

Why Executive Series?

Heritage of award winning products.

Building on OKI's heritage of award winning products, the exclusive Executive Series range of multifunction products, colour and mono printers provide hassle-free document solutions, budgetary control and enhanced workflow efficiency.

Our selected Executive Series partners can provide a print strategy and tailored solution that delivers total peace of mind through fully serviced products and the benefits of predictable budgeting.

Energy Star

Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy-efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.
